Greetings Friends,

If you'd like for me not to include you in my mailings please let me know.

I'm sending this out to warn everyone because I care, and I hate to see people being injured and murdered under a feigned concern for "public health."

Just a short note to warn anyone who has had the vax or anyone who is considering taking the vax, please watch this report before you do anything else. Do not take the shot and do not get booster shots.

For those who have not taken the vax and have no intention of taking it, brace yourselves because it appears that the Global Royalist Military Machine is under orders to force everyone to take the vax or kill them. It appears that that is what it will come down to.

This is not a public health issue at all. Dead people aren't healthy. It is a depopulation program. This video has gone viral.

If you've had the vaccine or been around anyone who has had it and you want to get "cleaned up," here's the link to a video interview with Dr. Judy Mikovitz who has just published a book about how to overcome the vaccine and recover your health.

Dr. Judy Mikovits interviewed by the Health Ranger: Fauci's covid crimes aren't his first "plandemic" [8 5 21] <https://www.brighteon.com/dc43ea4a-e64b-42a4-8737-1efb436751b5> [46:08]

34:28 – Dr. Judy Mikovitz: People need to know only one thing. Never get another shot and do not wear a mask. Then go back to your life and we can fix this. This is what "Ending Plague" is. [Her new book]

43:00 – What's vaccine? The Ivermectin in my pocket. Hydroxychloroquine. Let's get smart. . . . you know we were in a restaurant recently and the door said, "If you're here

without a mask it says you're vaccinated." And we're high-fiving each other. "Yeah, I'm vaccinated." And I've got the Ivermectin in my pocket. Hydroxychloroquine, Tony Fauci himself wrote in a paper in 2015, is a vaccine for SARS. You got it! Use a different vaccine, use the language. Am I vaccinated? Absolutely . . . A vaccine is anything that creates immunity. My vaccine works. Ivermectin actually prevents transmission because it keeps my own glutathione healthy. Good glutathione actually will break down, you know. And glyphosate, that's the problem. [Something about glycine] Go out and eat clean food, stay healthy and you're vaccinated. And so, there you are.
