Re: <http://presswire.com/content/1324064/board-governors-world-bank-and-imf-announce-transition-asset-backed-currencies>

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union.  
<https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/developmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US.  
<https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Sayed Mohammad Amin Fatimie and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Afghanistan. Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

Sincerely,

Karen Hudes

Your Excellency,

The fractional reserve fiat currencies issued by central banks comprising the “network of global corporate control” described by Stefania Vitali, James B. Glattfelder, and Stefano Battiston of ETH Zurich, [http://arxiv.org/PS\\_cache/arxiv/pdf/1107/1107.5728v2.pdf](http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf) are to be replaced by gold coins, gold leaf, and aurum<sup>2</sup>, denominated in each of the world’s currencies.

I am forwarding my Memorandum dated June 22, 2014 to the World Bank’s Board of Executive Directors describing the Global Debt Facility which will provide the gold, together with the first Monetary Agreement to be entered into with the Government of Japan.

Similar letters are being sent to the other embassies in Tokyo. If this is possible, we would like to conclude the Monetary Agreement with Afghanistan on the same closing date as the rest of the world.

Sincerely,

Karen Hudes  
Acting General Counsel

Even though you took my comment on DoDLive Blog down, it is still up at <https://s3.amazonaws.com/khudes/Twitter3.8.15.pdf>:

In Martin Dempsey's previous Q&A sessions on Facebook that he calls "Townhall meetings", Dempsey refused to answer the question about the planned crash of the Federal Reserve Note, which would mean unilateral surrender of the United States:

March 13, 2014: "Why didn't you answer my previous question to you at your town hall meeting on December 2, 2013:

With the Federal Reserve Note weakening against other currencies, 25% of international trade no longer denominated in US dollars, and the US credit rating on the verge of being lowered by the new Universal Credit Rating Group, do you think it is time to accept the offer of the authorized signatory to the Global Collateral Account to release the uncut dollars issued by the US Treasury department and back them with the 170,500 metric tonnes of gold on deposit in the Bank of Hawaii?

[https://s3.amazonaws.com/khudes/Karen-Hudes+\(2\).jpg](https://s3.amazonaws.com/khudes/Karen-Hudes+(2).jpg)

There is nothing that will impair US' military strength worse than a weak dollar."

The Senate also ducked this question last week in a hearing with Janet Yellen on the Fed, <https://s3.amazonaws.com/khudes/Twitter3.3.15.1.pdf>, and the House ducked this question as well in a hearing on reform of the Fed.

<https://s3.amazonaws.com/khudes/Twitter2.26.15.4.pdf>

This Tuesday Martin Dempsey is holding another Townhall meeting on Facebook, but we have grown weary of expecting any answers from that member of the Knights of Malta. We do not expect any answers from the US Congress either, because that body has been declaring a state of emergency and keeping us under martial law since 1861.

Congress has refused to acknowledge that the US Constitution was replaced by a second, secret Constitution in 1871, and it has refused to convene a Constitutional Convention although this was required under Article V of the Constitution after more than 2/3rds of the state legislatures have requested amendment of the Constitution.

When Congressional Judiciary Committees refuse to acknowledge that US citizens are shunted off to administrative hearings presided over by employees of a US Corporation instead of real judges sitting in the Article III courts under the Constitution, there is no reason to wait further.

This treason, for that is what is, will be dealt with later. We, the people, together with the County Executives of America, have accepted the United States monetary reserves on offer from the Global Debt Facility. The Fed and US Treasury Department have dishonored a notarial protest <https://s3.amazonaws.com/khudes/notarialprotest.pdf> and do not possess the United States' monetary reserves.

The Board of Governors of the World Bank and International Monetary Fund are replacing unconstitutional Federal Reserve Notes with Treasury Dollars on an interim basis, pending issuance of Dollars minted out of gold from the Global Debt Facility. The Global Debt Facility has perfected its security interest in obligations of the Federal Reserve Banks worth quadrillions that it holds called Treaty of Versailles Bonds, by filing UCC-1 financing statements with the Secretaries of State of Massachusetts, New York, Pennsylvania, Ohio, Virginia, Georgia, Illinois, Missouri, Texas, Minnesota, Kansas, and California.

An accurate power transition model from the US Department of Defense has been predicting that a coalition for the rule of law consisting of the BRICS, the G-77 (133 developing countries), Germany, and those US citizens who know what is really going on, would end this corruption from the Fed.

<https://s3.amazonaws.com/khudes/sentia+model.pdf>

If you need any further confirmation that this is so, see: <http://rt.com/op-edge/236219-russia-china-germany-trade-axis/#hcm=1425720783939848> Don't expect to read anything about this in the mainstream media, which is owned by the Network of Global Corporate Control that the Fed is part of. You can continue to follow developments on twitter @karenhudes, on facebook at <https://www.facebook.com/karen.hudes10/> and if you don't use facebook, many of the posts are at <http://www.frank-webb.com/karen-hudes---updates.html> Background information is at [www.kahudes.net](http://www.kahudes.net)

<http://rt.com/shows/boom-bust/242093-fed-apple-mobile-paradigm/>

RT needs to cover the truth about the Fed -- that the Fed does not own or hold US gold monetary reserves and that the Board of Governors of the World Bank and IMF administer a trust fund called the Global Debt Facility which holds the US and the rest of the world's gold reserves, as well as over 2 quadrillion dollars in Fed obligations. Following a notarial protest lodged with the Universal Postal Union, on March 9 the Board of Governors announced that fractional reserve fiat currencies will be replaced with asset backed currencies before the impending failure of Federal Reserve Notes. The Board of Governors informed the Secretary of State for Illinois that Jesse White had no standing to question the Board's decision that the Fed will be required to offset country debt with the debt the Fed owes on its Treaty of Versailles Bonds. The Fed, together with other private central banks, is going under the bankruptcy regimes of member countries on the Board of Governors. The Board of Governors is avoiding an otherwise certain currency war by deploying the gold in the Global Debt Facility for asset backed currencies issued by each of the countries' treasuries. Legal tender laws are going to be rescinded, so that local currencies in villages can create full employment and fuel growth.

Following my email of March 6, 2015 to the New York and Tokyo embassies clearing the press release, the Board of Governors duly issued the Press Release on March 9, 2015: <http://presswire.com/content/1324064/board-governors-world-bank-and-imf-announce-transition-asset-backed-currencies>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements on the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> as a precursor to winding down the Federal Reserve and the other private central banks under the bankruptcy regimes of the jurisdictions in which they are located. Country debt will be offset against the obligations of these central banks held by the Global Debt Facility.

The Secretary of State of Illinois has sent me this letter challenging the debt that is held by the Global Debt Facility owed by the Federal Reserve Bank of Chicago unless I provide "supporting documentation" . <https://s3.amazonaws.com/khudes/illinoisucc.pdf>. I intend to contest the authority of Illinois' Secretary of State to challenge the filing, which was done on behalf of the Board of Governors of the World Bank, and is therefore exempt from the applicable Illinois statute. <https://s3.amazonaws.com/khudes/lucc2.pdf> Please let me know if you object to this letter.

Documentary evidence:

- notarial protest lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>
- inventory in Tunnel D in Indonesia: <https://s3.amazonaws.com/khudes/Inventory+D-Tunnel+2.jpg>
- unsuccessful attempt by Federal Reserve to buy back its bonds worth (\$2,000T) \$2,000,000,000,000,000 at a steep discount in December 2014  
<https://s3.amazonaws.com/khudes/treaty+of+versailles+offer+of+sale+2+quadrillion1.pdf>

I contacted the West African embassies in Washington to inform them that it was not possible to remove the deposits of the Global Debt Facility in twenty-six days since any decision how to deploy the assets in the Global Debt Facility for the benefit of humanity must be taken by the Board of Governors of the Bretton Woods institutions. <https://s3.amazonaws.com/khudes/Twitter3.18.15.pdf>

I am conferring with the Development Committee on structuring communications and decision-making by the Board of Governors on the Global Debt Facility.

I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 30, 2014 to the Commonwealth of The Bahamas and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of the Bahamas. The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Africa Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

Your Excellency,

I refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Africa Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Ms. Mira Martinec and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Croatia. Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Leonardo Carrion Eguiguren and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Ecuador. Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold
- advance administrative costs approved by the Board of Executive Directors on June 22, 2014

- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, to H.E. Mr. Manu Virtamo and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Finland. The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Africa Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold
- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Senkoun Sylla and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Guinea. Similar letters are being sent to the other Ambassadors of the West Africa region, for transmittal to Ministers of Finance in their respective countries.

Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Dr. Reza Nazarahari and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Iran. Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

Re: <http://presswire.com/content/1324064/board-governors-world-bank-and-imf-announce-transition-asset-backed-currencies>

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Africa Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/developmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/tokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Khalid bin Hashil bin Mohammed Al-Muslahi and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Oman. <https://s3.amazonaws.com/khudes/Monetary+Agreement1.pdf> Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/developmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/tokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws
- establishing a sound communications strategy

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/developmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/tokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws
- establishing a sound communications strategy

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Africa Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/developmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/tokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies

Your Excellency,

This is further to my email to your Washington Embassy dated March 13, 2015, and emails to your New York and Tokyo Embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors as well as the Notarial Protest, which has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws
- establishing a sound communications strategy

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

The purpose of this letter is to update Thailand with the correspondence that I am forwarding simultaneously to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries. I am also requesting Thailand to let me know who will be negotiating the Monetary Agreement <https://s3.amazonaws.com/khudes/Monetary+Agreement1.pdf> that was forwarded to H.E. Mr. Thanatip Upatising in my letter of June 26, 2014.

Your Excellency,

I refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The bank accounts of the Global Debt Facility are not unclaimed funds and the decision of the Governors in the West Region concerning the onward transfer of over-due /unclaimed funds lying with every bank in West Africa since past fifteen(15) years does not apply to those funds. I understand that the decision was to transfer these funds to the Government Treasury Departments within 26 days.

Re: <http://presswire.com/content/1324064/board-governors-world-bank-and-imf-announce-transition-asset-backed-currencies>

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws
- establishing a sound communications strategy

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Ihor Kharchenko and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Ukraine. <https://s3.amazonaws.com/khudes/Monetary+Agreement1.pdf> Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

Sincerely,

## The United States

Due to state capture, I did not send a letter to the Secretary of the Treasury, to request Jack Lew to inform me who will be negotiating the Monetary Agreement for production of Aurum by the US Mint. I will agree on the production schedule with Rhonaa Sapp, of the American Federation of Government Employees, Mint Council.

The Citizens will soon have their organic Constitution back, if I am not mistaken. I had a heated discussion with one of the provocateurs, who contacted me to get my endorsement on a complex statement designed to confuse and slow down the return to constitutionality. I am going to be working with the Board of Governors, and will not be able to be involved. The Articles of Agreement of the International Bank for Reconstruction and Development contain in Article IV:

### **"SECTION 10. Political Activity Prohibited**

The Bank and its officers shall not interfere in the political affairs of any member; nor shall they be influenced in their decisions by the political character of the member or members concerned. Only economic considerations shall be relevant to their decisions, and these considerations shall be weighed impartially in order to achieve the purposes stated in Article I."

Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>

As determined by the Development Committee and subsequently informed to them, <https://s3.amazonaws.com/khudes/ldevelopmentcte3.pdf> the Global Debt Facility has filed financing statements with the 12 Federal Reserve Banks in the US. <https://s3.amazonaws.com/khudes/ucc1.pdf> Country debt will be offset against the obligations held by the Global Debt Facility.

The funds of the Global Debt Facility are for the benefit of humanity and may not be transferred without the protocols in the Bilateral Minesfield Breakthrough Successor Agreement, <https://s3.amazonaws.com/khudes/BILATERAL.pdf> which will include decisions to be taken by the Board of Governors and authorized signature. The Board of Governors has determined that there will need to be full agreement about the disposition of assets in the Global Debt Facility. So far, the only agreed disposition is the replacement of fractional reserve fiat currency and remediation of Fukushima as set out in the letters to the Tokyo embassies. <https://s3.amazonaws.com/khudes/ltokyoembassies1.pdf>

The World Bank and International Monetary Fund Development Committee serve as liaisons to the full Board of Governors. The Development Committee is currently considering the following implementation measures.

- the proposed draft Monetary Agreement which was forwarded to the Tokyo embassies
- the historic price of gold

- advance administrative costs approved by the Board of Executive Directors on June 22, 2014
- my admittance to World Bank and IMF headquarters and country offices
- differentiating and disposing of excess, speculative foreign currencies
- audit of gold in the Global Debt Facility and claims of possible thefts
- winding down the network of global corporate control and bankruptcy of the banks operating under various jurisdictions
- transition arrangements; local currencies
- bailment laws
- establishing a sound communications strategy

These matters affect each and every nation. The Network of Global Corporate Control is violating the Articles of Agreement of the World Bank and International Monetary Fund <https://s3.amazonaws.com/khudes/general+assembly3.docx> The President of the World Bank and the Managing Director of the IMF cannot overrule the Board of Governors of the World Bank and IMF or their Boards of Executive Directors; the Boards have full authority to conduct the general operations of the World Bank and IMF.

I refer to my letter of June 26, 2014 to H.E. Mr. Ng'ona Mwelwa Chibesakunda and would appreciate learning which persons will be negotiating the Monetary Agreement on behalf of Zambia. <https://s3.amazonaws.com/khudes/Monetary+Agreement1.pdf> Similar letters are being sent to the other 187 Ambassadors of the World Bank and IMF membership, for transmittal to Ministers of Finance in their respective countries.

Your Excellency,

This is further to my email to the New York and Tokyo embassies dated March 19, 2015, a copy of which is enclosed for your ready reference. I also refer to my letter dated January 8, 2015 to Dr. Janet Yellen concerning the fraudulent claims of the Federal Reserve, copied to you and the rest of the members on the Board of Governors. Since then, a Notarial Protest has been lodged with the Universal Postal Union. <https://s3.amazonaws.com/khudes/notarialprotest.pdf>
